Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Koo discussed the nature of the invention as non-transdermal patch that works through magnetic field created from the non-transdermal patch containing the nutritional supplement. Mr. Koo will amend the claims to recite "non-transdermal patch" to overcome US '514 reference that is directed to transdermal patch. The examiner suggested adding functional language to the claims to avoid 112 issues. Patentability will be determined upon filing the official response .
